CAREER OBJECTIVE

I want to build a high-impact career as a Technical Project Manager, Advanced Data Analyst, Business Leverage Strategist, and Virtual Operator. I bring hands-on expertise in multi-agent workflows, generative AI operations, business franchise leveraging, and scale-driven process optimisation — backed by comprehensive operational data analysis. My goal is to use all of that to lead complex technical initiatives, help organisations run more efficiently, and deliver results that actually move the needle.

EDUCATION

B.Sc. Computer Science — Completed

2022 – 2025

Kwara State University (KWASU) · Direct Entry (3-Year Programme)

WORK EXPERIENCE

Freelance Data Analyst & Business Operations Consultant

2025 – Present

Self-Employed · Remote

- Analysed business datasets and produced clear reports to help clients understand their operational performance.
- Designed process frameworks to improve how small businesses organise their workflows and reduce wasted time.
- Set up AI-assisted automation workflows to reduce repetitive manual tasks for clients.
- Produced professional project reports, business proposals, and strategic presentations.

Part-Time Lecturer & Technical Operations Specialist

2021 – 2022

Crown Polytechnic, Ado-Ekiti

- Delivered computer science courses to ND students, managing timetables, lab sessions, and assessments.
- Maintained and supervised the departmental computer laboratory, ensuring equipment was always operational.
- Tracked student performance using Excel and produced termly reports for departmental review.
- Mentored students on technical problem-solving, project work, and system deployment.

Operations Manager

Commercial Gas Station, Ikare-Akoko, Ondo State

● Managed the full daily operations of the facility including staff supervision and shift scheduling.

● Handled daily sales tracking, cash management, and weekly financial reporting to ownership.

● Maintained compliance, safety standards, and asset inventory across the facility.

● Introduced clear communication guidelines for staff that improved service delivery.

2017 – 2018

Volunteer Technical Trainer

Community Development Organisation, Ondo State

● Designed and delivered a technical training programme for youth participants in the community.

● Covered foundational computer skills, data organisation, and office productivity tools.

2023 – 2024
